ABOUT US

Your aviation partner for every journey

KRA Aviation Services Ltd is a Nigerian aviation company. We arrange air charters, manage aircraft, coordinate flight support and advise on aviation projects.

Our clients include government institutions, private organisations, high-net-worth individuals and international business partners. We put safety first, follow procedures carefully and build long-term relationships with the people we work with. Our offices in Nigeria and our international partners let us find the aircraft and services each client needs.

OUR VISION

To become a leading Nigerian and African aviation group, known for safety, reliability and good service, and operating domestic and international flights as a fully certificated airline.

OUR MISSION

To provide safe, efficient aviation services through skilled people, strong international partnerships, regulatory compliance and sound corporate governance, and to create lasting value for our clients, partners, investors and communities.

WHAT DRIVES US

Our values and our clients

Our values

VALUE	WHAT IT MEANS IN PRACTICE
Professionalism	We hold every operation and client interaction to a consistent, high standard.
Discipline	We follow procedures, regulations and safety protocols every time.
Honesty	We are open and truthful in all our dealings.
Trustworthiness	We keep our promises and protect client confidentiality.
Confidence	We act with competence and make clear decisions.
Customer care	We treat every client with courtesy and respect, and pay attention to what they need.
Dedication	We keep improving and we invest in long-term relationships.

Who we serve

CLIENT	HOW WE SUPPORT THEM
Government institutions	Official travel, delegation charters, protocol and aviation advisory.
Private organisations	Corporate charters, travel management and flight support.
Individuals and VIPs	Private charter, concierge travel and protocol assistance.
International partners and investors	Market-entry support, partnership structuring and aviation investment advisory.
Aircraft owners and operators	Fleet management, compliance support and operational oversight.

WHAT WE DO

Six services, one point of contact

Our services cover each stage of an aviation requirement, from planning and sourcing aircraft to running the flight and looking after passengers on the ground.

01
Charter brokerage
We arrange private, executive, group and cargo charters. We source suitable aircraft from vetted operators, handle flight planning and permits, and support you from booking to arrival.

02
Aircraft and fleet management
We manage aircraft for owners and operators: operational oversight, crew coordination, maintenance planning, regulatory compliance and cost control. The aim is to keep the aircraft safe, available and holding its value.

03
Airline and general aviation consultancy
We advise airline start-ups, operators and investors on regulatory pathways, business planning, fleet selection, route development, safety systems and readiness to start operations.

04
Flight support and handling
We coordinate ground handling, flight planning, overflight and landing permits, transport, catering, fuel, and crew and passenger facilitation at Nigerian and international airports.

05
Travel management
We manage corporate and government travel, including ticketing, itineraries, visa guidance and group travel, and we build travel programmes that keep costs under control.

06
Protocol services
We look after VIPs and government delegations: airport reception, fast-track facilitation, lounge access, security coordination and on-ground assistance.

WHERE WE WORK

Based in Nigeria, connected internationally

We work from three Nigerian cities and maintain partnerships in China, South Africa and the Middle East.

HEAD OFFICE

Kano

No. 48 Lawan Dambazau Road. Corporate administration and governance.

OPERATIONS BASE

Abuja

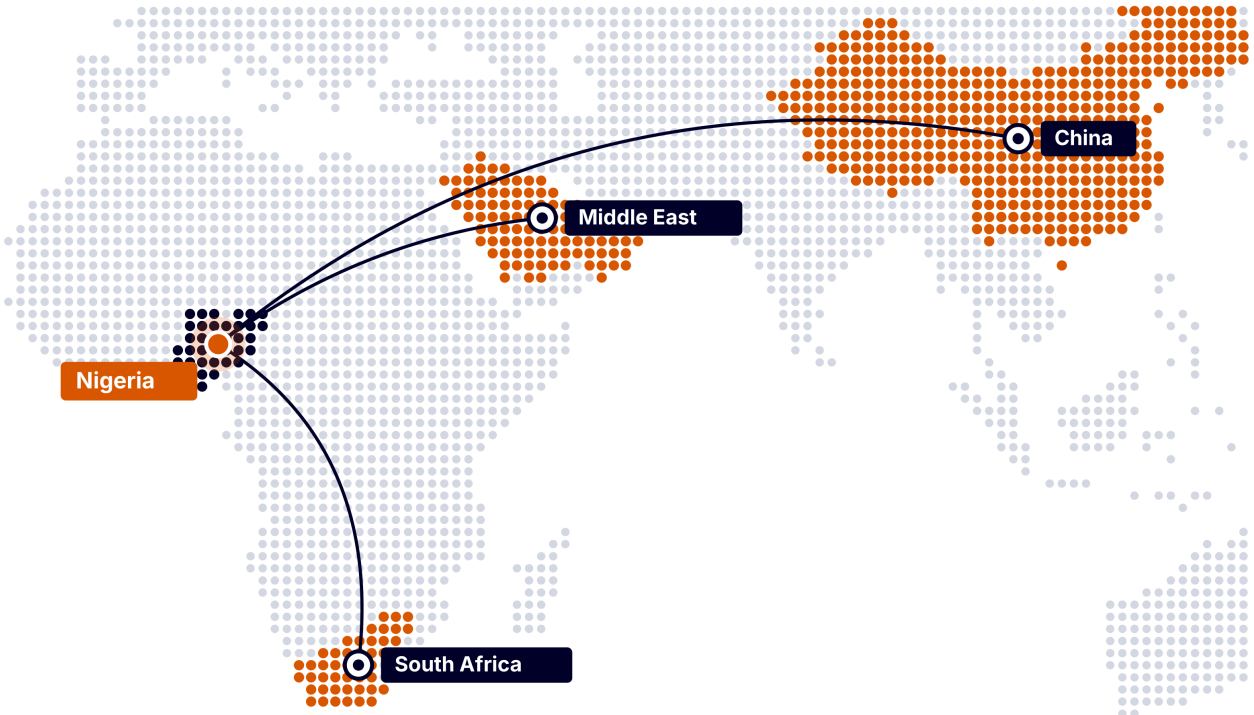

Flight operations, client coordination and government liaison.

CORPORATE OFFICE

Lagos

Business development, commercial relations and engagement with international partners.

International partnerships

REGION	WHAT THE PARTNERSHIP COVERS
China	Aircraft sourcing, technical cooperation, trade and investment links.
South Africa	Aviation expertise, maintenance and technical support networks, and regional business connections.
Middle East	Charter, travel, investment and business partnerships with Gulf markets.

Through these partners, our clients can reach international aircraft sources, specialist services and investment networks.

SAFETY, COMPLIANCE AND GOVERNANCE

Our regulatory pathway

We currently operate under an Air Operator's Permit (AOP). Our application for an Air Transport Licence (ATL) is in process, and we plan to apply for an Air Operator's Certificate (AOC) once the ATL is granted. This sequence is our route to becoming a scheduled airline.

ACTIVE
AOP
Air Operator's Permit. Our current basis of operations.

IN PROCESS
ATL
Air Transport Licence. Application submitted.

PLANNED
AOC
Air Operator's Certificate. To follow the ATL.

We are committed to meeting Nigerian Civil Aviation Authority (NCAA) requirements and international safety standards.

WHY KRA

Built for trust, planned for growth

Our team

A management team and board of directors lead the company. They are supported by professionals in aviation operations, technical and regulatory matters, business development, finance, corporate communications and law.

What we offer

- We operate under an AOP and have a defined path to the ATL and AOC.
- Our management and governance structures support steady, disciplined growth.
- Clients get charter, fleet management, flight support, travel and protocol services from one provider.
- Our partners in China, South Africa and the Middle East extend what we can source and deliver.
- We have offices in Kano, Abuja and Lagos.
- We adapt our services to government, corporate and private clients.

Growth roadmap

HORIZON	FOCUS
Near term	Strengthen charter, fleet management, handling and travel services. Secure the ATL.
Medium term	Obtain the AOC and launch scheduled domestic flights on key routes.
Long term	Expand into regional West African and international routes, with support from our partners in Asia, Africa and the Middle East.

KRA AVIATION

Let's build the next connection

If you need a charter, fleet management support, aviation advice or a long-term partner, we would like to hear from you. We welcome clients, investors and partners who want a safe, reliable and competitive Nigerian aviation sector.
